

Dr. S.E. McDowell Elementary School Code of Conduct

Last revised: September 2019

School Council Consultation-September 20, 2019

Governing Board Approval-Presented September 9, 2019; Accepted September 21, 2019

Rationale:

In order to promote better understanding by all members of the school community, the staff, parents, and students of Dr. S.E. McDowell Elementary School, we have adopted the following statement of educational and safety responsibilities and rights as the basis of our Code of Conduct.

A school is a safe and caring place that provides access to equal learning opportunities for all students. In addition to the regular curriculum, good citizenship must be taught and demonstrated. Students are expected to learn responsibility for rules and regulations adopted for the benefit of all, and to demonstrate awareness of and appreciation for the rights of others.

The Code of Conduct establishes and ensures the expectations for responsible and respectful behaviour. All stakeholders “students, parents, teachers, and staff”, have the right to feel safe in their school community. As outlined by the Quebec Education Program, “parent’s involvement in their children’s education plays a determining role in their development and success, and in the relationship between the family and the educational setting” (QEP, policy on educational success, a love of learning, a chance to succeed, www.education.gov.qc.ca).

Therefore, the standards of behaviour in the Dr. S.E. McDowell Elementary School Code of Conduct apply not only to students, but also to all individuals involved in the school system (parents/guardians, volunteers, teachers, and other staff members) while on school property, on school buses, or at school authorized events or activities.

Discipline Policy

Respect towards self, other people and the school environment is the foundation of our Code of Conduct at Dr. S.E. McDowell Elementary School. However, depending on the behaviour, a range of consequences are available to school personnel which should provide the flexibility necessary to meet the wide range of situations and individuals that may be encountered.

Children pass through many stages as they grow. They are constantly seeking new experiences and testing their limits. An important life skill that all children must learn is how to choose appropriate actions when faced with a difficult situation. We, as parents and educators, must help them learn to accept responsibility for their behaviour and accept the consequences should they make an inappropriate choice.

Our general school rules and practices are outlined in our behaviour pyramid of intervention. This document ensures clear, fair and consistent disciplinary practices to deal with breaches to the code of conduct. The purpose of the behaviour pyramid is to identify minor, moderate and major behaviour infractions, the staff responsible for intervention and the consequences and supports available. (See appendix A)

All sanctions or consequences designed to address behaviour infractions will be made appropriate to the level of development and individual needs of the particular student.

IT IS IMPORTANT TO NOTE THAT PARENT CONSULTATION WILL TAKE PLACE WHENEVER THE MISBEHAVIOUR IS OF A SERIOUS NATURE.
